February 26, 2025 Version 2025.02.04.01

Announcement

Chatbot

The chatbot in Trimble Construction One (TC1) projects is temporarily unavailable while we address some issues.

February 22, 2025 Version 2025.02.04

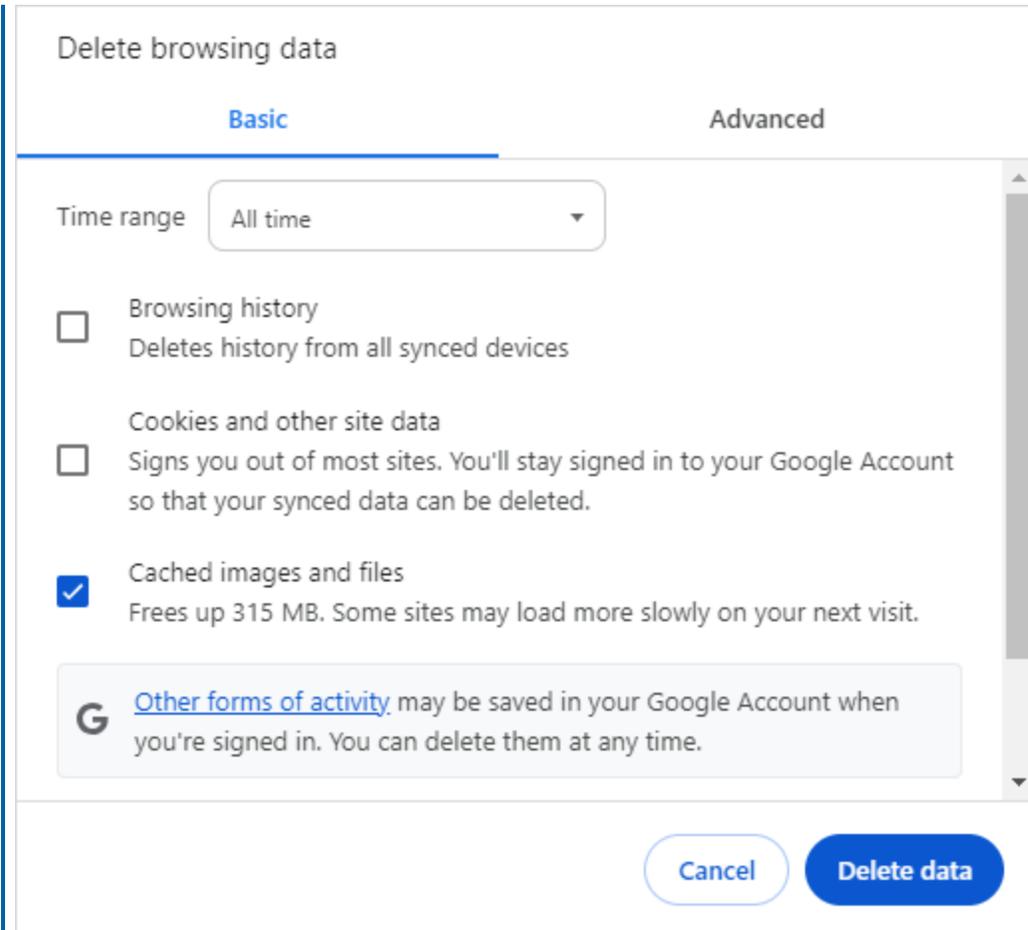

Feature enhancements

Viewer upgrade

Note:

To prevent potential errors, please clear your browser cache before you use ProjectSight. To clear the cache, press **Ctrl + Shift + Del**, and ensure that **Cached images and files** (Chrome / Edge) or **Cache** (Firefox) is selected. You can also [clear the browser cache from the settings](#).

Example

Clear the browser cache in Chrome

Chatbot

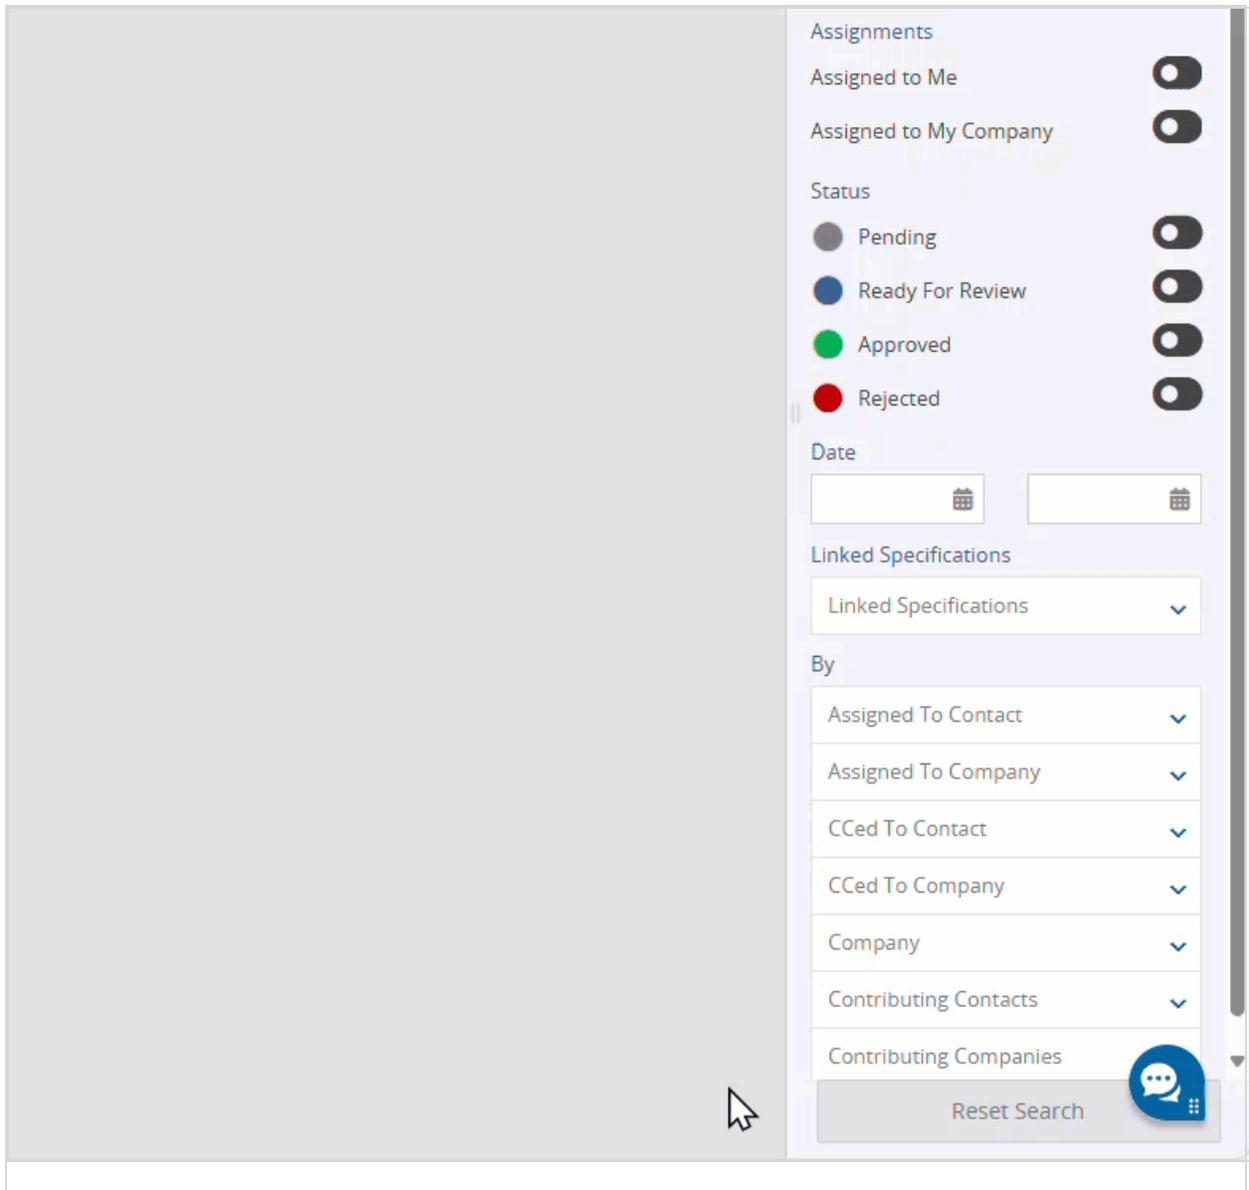

TC1 version

A beta version of the chatbot is now available in Trimble Construction One (TC1) projects so you can find information from the online help.

Tip

You can move the chatbot as needed.

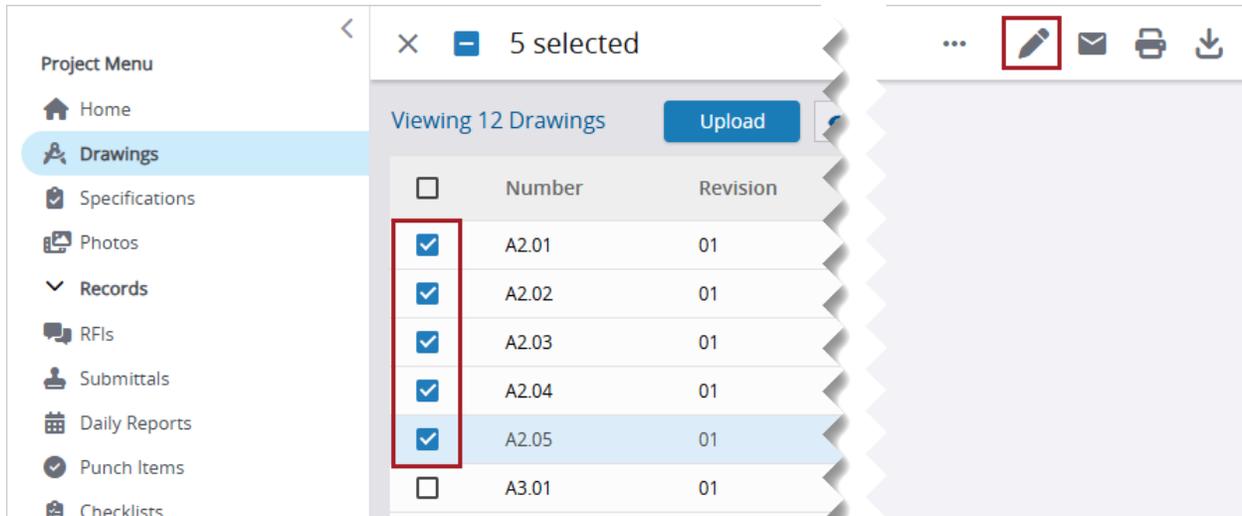

Example

Move and then open the chatbot

Drawings - Batch edit

In the Drawings module, you can edit multiple drawings at the same time.

Select multiple drawings for editing

Tip

- To choose consecutive drawings in the list view, select a drawing, and then press **Shift** and select another drawing in the list.
- To copy values down the **Discipline** or **Location** column, make sure that the cell is selected but the dropdown list is closed. Then press **Ctrl+Down arrow**.

Example

Viewing 12 Drawings Upload Unsaved View Group Number (Semantically)

Edit multiple drawings

Resolved issues

- In company records, users without permission to create companies can view the projects list for a company contact. (CN 000000571 / PS-55966)

February 15, 2025 Version 2025.03

Feature enhancements

General invoices - Purchase order calculations

TC1 version

In general invoices, you can view the current purchase order values. The following changes have been made to the columns:

- PO Quantity: The actual quantity from the purchase order line item.
- PO Unit Price: The actual unit price for the purchase order line item.
- PO Subtotal: The actual subtotal for the purchase order line item.
- PO Quantity Balance (formerly called PO Quantity): The remaining quantity balance from the purchase order line item prior to this invoice.
- PO Balance (formerly called PO Subtotal): The remaining balance from the purchase order line item prior to this invoice.

- **New PO Qty Balance** (formerly called Quantity Balance): The remaining quantity balance for the purchase order line item as a result of this invoice
- **New PO Balance** (formerly called Balance): The remaining balance for the purchase order line item as a result of this invoice.

Purchase order columns in a general invoice

Job costs

TC1 version

In the budget grid, the new Hours column displays the job cost hours from the ERP. You can only update this column via the ProjectSight API.

The screenshot shows the 'Columns' dropdown menu with the following options:

- Select All
- Hours
- Last Modified

The 'Budget Items' table below shows the following data:

| <input type="checkbox"/> | Budget Code * | Description * | ↑ | Approximate Commitment | Projected Costs | Hours | ↑ |
|--------------------------|-----------------|---------------|-----|------------------------|-----------------|-------|---|
| <input type="checkbox"/> | 01.012100.BU.IC | Contingency | .00 | 0.00 | 1,578,486.00 | 350 | |

Hours column in the budget

Dates from imported data

When a specific client uses an application to populate data in ProjectSight via the API, the dates are displayed correctly in the following areas of ProjectSight:

- Records
- Grids
- Activity stream
- History tab
- Search panel (the dates are found correctly)
- Ad hoc and Crystal reports

Project selection page

TC1 version

To improve how quickly the project selection page is displayed, users with access to more than 20 portfolios now see the list of portfolios, not projects, first.

ProjectSight API

TC1 version

You can use the API to:

- Create a new project that's linked to an existing Trimble Connect project.
- Add the project image.

Resolved issues

- When a project is exported, the emailed link is a secured link. (CN 000000531 / PS-55312)
- Linked files can be downloaded from notices to comply. (CN 000000539 / PS-55456)
- When there are multiple custom views and the zoom level is changed to 90%, the custom view list is displayed properly. (CN 000000548 / PS-55596)
- If no modifications are made to a drawing, and it's closed using the Done button, the Last Modified date is not changed. (CN 000000558 / PS-55813)
- If a PDF has an ampersand (&) or percentage symbol (%) in the file name, the file path of the downloaded PDF is correct. (CN 000000559 / PS-55815)
- When a custom view is saved, the Responsible Company filter selections that contain an ampersand (&) are saved too. (CN 000000565 / PS-55898)
- On the Impact tab of issues, the No button displays the correct label. (CN 000000587 / PS-56186)

February 4, 2025 Version 2025.02.01

Resolved issues

- In the Resource Center, the online help link has been fixed. (CN 000000577 / PS-56036)
