July 31, 2025 Version 2025.13.02

Resolved issues

- In the settings, checklist templates are opened without any errors. (CN 000002711 / PS-60628)

July 29, 2025 Version 2025.13.01

Resolved issues

- In meeting minutes, topics are added successfully. (CN 000002720 / PS-60724)
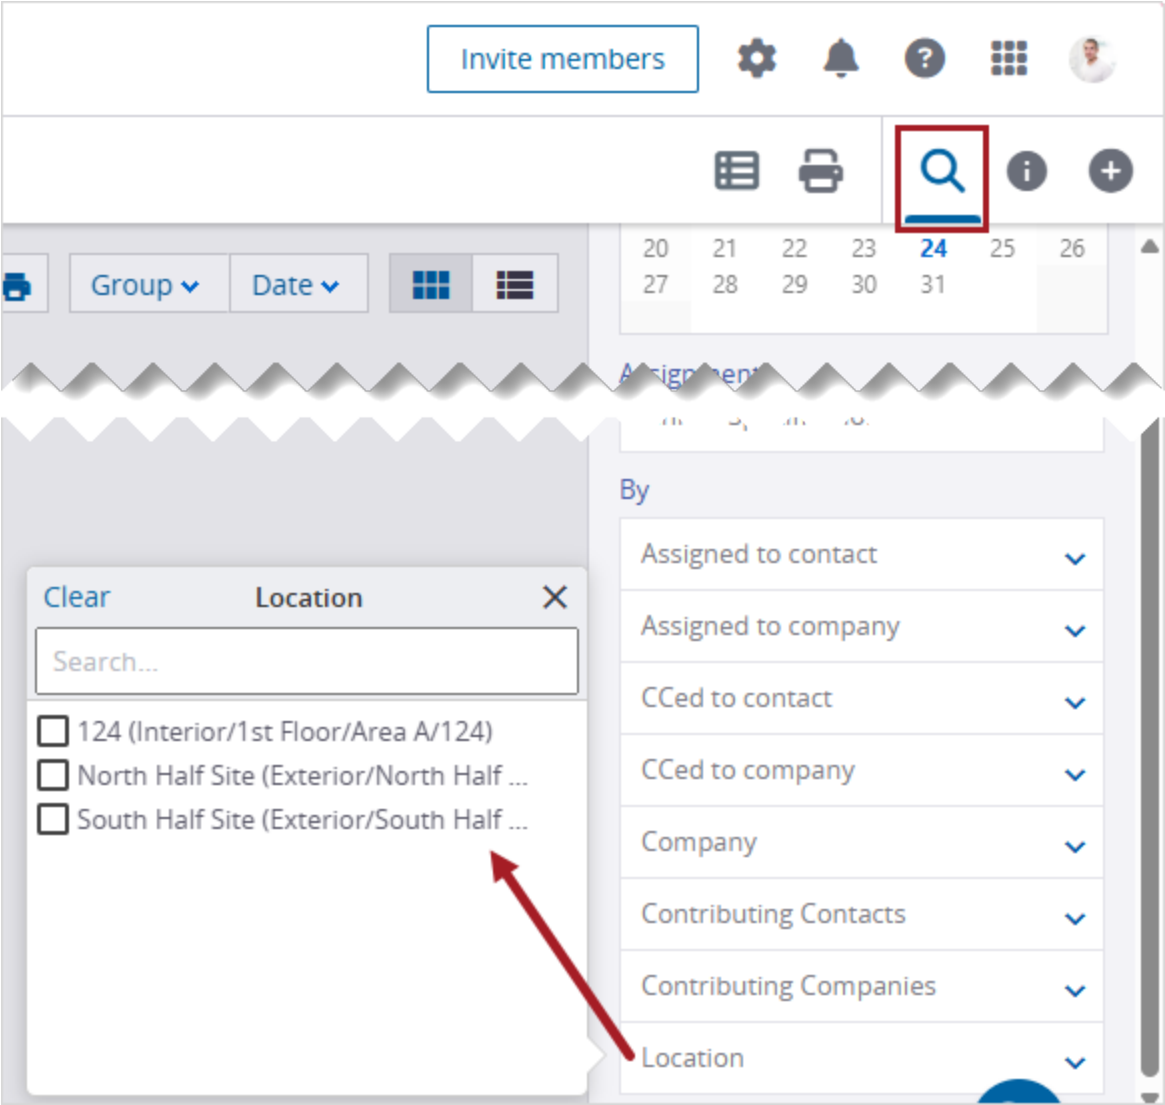

July 26, 2025 Version 2025.13

Feature enhancements

Free collaborators - Issue creation

Free collaborators, users who don't have a license, can now create issues in ProjectSight.

Daily reports - Location filter

TC1 version

In the daily reports module, you can filter daily reports by location. The Location filter displays the locations that are used in the labor and equipment cards.

Location filter in the Search panel

Project selection page - Menu

On the project selection page, you can select and drag the right side of the menu so that you can see the complete portfolio names.

RFIs - Comments field PSW-I-3980

In the edit mode for RFI comments, you can select and drag the bottom of the comments field so that you can see more lines of the comment.

Resolved issues

- On the tiles on the project selection page, the project progress widget displays the correct percentage. (CN 000002604 / PS-60054)
- When a security role has permission for the Financials settings at the project level, the settings are available in the project settings. (CN 000002650 / PS-60370)
- In the budget, custom views include the Group setting. (CN 000002663 / PS-60439)
- When the Attention field in purchase orders is hidden because of the security role permissions, you can create purchase orders. (CN 000002602 / PS-60047).

July 21, 2025 Version 2025.12.01

Resolved issues

- When a PCO item is changed in one browser tab, the associated budget item displays the updated amount correctly in the other browser tab. (CN 000002580 / PS-59977)
- When a PCO item is changed, the applied amount in the banner is calculated correctly. (CN 000002591 / PS-60001)

July 8, 2025 Version 2025.12

Feature enhancements

Daily reports - Multiple locations for each crew PSW-I-3568 and PSW-I-2061

TC1 version

You can now add multiple labor cards for each crew at the same or different locations.

Interior > 1st Floor

👥 6   🕐 48 Hours   📎 0   🟢 Approved

⏱ labor for Eastside Company (Morning crew) by Johnny Smith
Interior > 1st Floor > Area A

👥 2   🕐 16 Hours   📎 0   🟢 Approved

Multiple labor cards for the same crew in a daily report

When you copy labor cards into a daily report, the Copy Labor from dialog displays the location and work description to make it easier to find the labor cards that you want to copy.

Location and work description columns in the Copy Labor from dialog

Additional enhancements

- For security roles, you can assign the view-only permission for the Users page (*[SecurityRoleName]* > Features tab > Administration > Portfolio settings > Users > Can view only).
- For contract invoices, the Due date field is available in the .xsd files.
- In superseded contract invoices, you can edit non-financial fields such as Description, Category, and Notes, as well as custom fields.
- In purchase orders, the From signed by field has been added to the Contact details section and to the .xsd files.
- In general invoices, the Items grid includes new columns.

Column name	Calculation
Total invoiced qty	PO quantity - New PO quantity balance
Total invoiced amount	PO subtotal - New PO balance
Total % complete	Total invoiced amount / PO subtotal * 100 (shown to 2 decimal places)

Resolved issues

- The Ctrl+Down arrow keyboard shortcut works correctly in the Potential change order items grid. (CN 000001984 / PS-59340)
- In the Photos module, uploaded .heic files are converted to .jpeg files and are visible in the module. (CN 000002590 / PS-59999)

July 1, 2025 Version 2025.11.02

Resolved issues

- Files can be uploaded to records successfully. (CN 000002595 / PS-60015)
- Reports can be generated successfully. (CN 000002597 / PS-60023)
